

Sensory Friendly Artmaking in the Crayola Classroom

Join us in the Crayola Classroom each Sensory Saturday to make art with our team of museum educators!

July-September: *Sensory Stones*

Explore your sense of smell and touch by creating a sensory stone. Sensory stones can help us stay calm and focused. Imprint textures and images into clay using stamps and other texture tools and use scented markers to add aroma and smell to your stone.

Sensory Stone Materials for Sensory Hour:

- Model Magic
- Stamps
- Texture Plates
- Bottle caps
- Wooden Dowels
- Scented Markers
