

Sensory Friendly Artmaking in the Crayola Classroom

Join us in the Crayola Classroom each Sensory Saturday to make art with our team of museum educators!

April-June: Sound Sculptures

Music surrounds our daily life, from windchimes to bells and musical instruments! Artists are inspired by these everyday objects that make sound and music. Explore sound art pieces in the museum and make some noise by creating your own sound sculpture with materials that make sound, such as bells, keys, and wind chimes.

Sound Sculpture Materials for Sensory Hour:

- Bottle caps
- Bells
- Wind chimes
- Recycled keys
- Beads
- Recycled cardboard cylinders
- Buttons
- Coat hangers
- Wooden dowels
- Twine or string
